

The Springing Care Program

Decades' Springing Care Program was created to provide care & financial management services in the event of a health emergency, a decline in physical or mental health or the onset of a chronic illness.

- HEALTHCARE NAVIGATION
- 24-HOUR ON-CALL ASSISTANCE
- ATTEND EMERGENCY ROOM VISITS
- PROVIDE MEDICAL STAFF WITH HISTORY, CONTACTS, INSURANCE INFORMATION, ADVANCE DIRECTIVES & MEDICATION INFORMATION
- HEALTHCARE & FINANCIAL DECISIONS WHEN POWER OF ATTORNEY
- ASSIST WITH DISCHARGE TRANSITIONS FROM HOSPITAL TO HOME OR TO REHAB
- PET CARE COORDINATION IN EMERGENCIES

How it works:

- A one-time client set-up fee will be assessed when you complete your Springing Program Enrollment Packet. To make things easy, Decades can assist with filling out forms and will work with your attorney to gather necessary legal documents.
- Each July, you will receive an invitation to meet with our team, update your records and discuss any changes in your health. A nominal annual administrative fee will be applied each July thereafter. The first year's annual fee will be waived for all clients who enroll between January and July of the same year.
- When Care Management services are activated, the Care Manager hourly charge will be applied.

Decades can serve you and your family in a variety of ways:

1. As your Health Care and Durable (Financial) Power of Attorney
2. As the Executor of your Estate
3. Provide on-going care management services in the event of a decline in physical and/or mental abilities
